

Devanshu Raj

UI/UX Designer & Frontend Developer

✉ yourmail@email.com | 📞 +91 98765 43210 | 📍 Greater Noida, India | 🔗 linkedin.com/in/devanshuraj | 🌐 yourportfolio.com

PROFESSIONAL SUMMARY

Creative and detail-oriented fresher UI/UX Designer with hands-on experience designing intuitive interfaces including sign-up flows, login pages, and full website layouts using Figma and Adobe XD. Complements design skills with practical frontend development using the MERN stack, bridging the gap between design and implementation.

EXPERIENCE

UI/UX Designer & Frontend Developer

Jan 2024 – Present

Self-Employed / Freelance · Remote

- Designed responsive sign-up and login page flows with a focus on usability and visual hierarchy.
- Created full website layouts from wireframe to high-fidelity prototype using Figma.
- Implemented UI components using React.js, ensuring pixel-perfect translation from design to code.
- Built backend integrations with Node.js and MongoDB for form handling and user authentication.
- Conducted usability reviews and iterated on designs based on feedback.

PROJECTS

User Authentication UI — MERN Stack

Designed and developed a full sign-up/login flow with form validation, error states, and responsive layout. Created in Figma and implemented with React.js + Node.js + MongoDB.

E-Commerce Website Layout

Designed a complete multi-page e-commerce website layout including homepage, product page, cart, and checkout screens. Focused on clear visual hierarchy and conversion-friendly UX.

[#Figma](#) [#Adobe XD](#) [#React.js](#)

Portfolio Website

Designed and coded a personal portfolio site showcasing UI/UX projects, with smooth animations and a fully responsive layout across all devices.
